SUMMARY

Aspiring Full Stack Developer with a BCA and a strong foundation in building responsive, scalable applications. Proven experience in backend systems, REST API development, and frontend UI design. Passionate about clean code, real-world problem solving, and continuous learning. Skilled in React, NodeJS, NodeJS , EMongoDB, MongoDB , and Python. Seeking opportunities to grow as a Software Engineer or Backend Developer.

EXPERIENCE

Technology Consulting Job Simulation

Deloitte Australia via Forage   **July 2025**

· Parsed and unified telemetry data from JSON sources using Python and implemented unit tests.
· Proposed a real-time manufacturing dashboard in a simulated client scenario.
· Applied agile methodology, project estimation, and professional documentation skills.

Customer Experience Agent

Alorica (Amazon Process)   **October 2024 – July 2025, Bengaluru, Karnataka**

· Handled 100+ live chat customer queries daily for Amazon, maintaining 90%+ resolution accuracy.
· Developed strong communication and technical troubleshooting skills under pressure.
· Improved response time by identifying common issue patterns and optimizing resolution paths.

· Extracts various features from URLs such as length, number of digits, special characters, presence of HTTPS, and subdomains to assess their legitimacy.
· Uses a trained Random Forest Classifier to predict whether a given en URL is a phishing attempt based on the extractefeatures.es .

PROJECT

Phishing URL Detector

Academics · github.com/chocovish02/Phishing-Detector · May 2024 – July 2024

· Extracts various features from URLs such as length, number of digits, special characters, presence of HTTPS, and subdomains to assess their legitimacy.
· Uses a trained Random Forest Classifier to predict whether a given URL is a phishing attempt based on the extracted features .
· Engineered a machine learning–based solution that analyzes extracted URL features to accurately classify and detect phishing attempts, enhancing cybersecurity measures for end users.

Portfolio Website

Academics · github.com/chocovish02/My-Portfolio · January 2024 – April 2024

· Ensures the website is accessible and looks great on all devices, from desktops to smartphones .
· Smooth navigation gation and user-friendly interface for a seamless browsing experience.
· Enhances user engagement with subtle animations and transitions.

EDUCATION

Bachelor of Computer Applications (BCA)

Rani Channamma University · Belagavi · 2024 · 7.2
